

Project Purpose

The purpose of this project is to improve roadway congestion by achieving acceptable Levels of Service and to address safety issues by reducing the predicted crash frequency along the US 322 corridor between Potters Mills and Boalsburg. Additionally, the project will aim to provide a transportation network that meets driver expectations.

Project Needs

- High peak hour traffic volumes cause congestion and result in unacceptable Levels of Service on US 322 roadway and intersections.
- Existing roadway configurations and traffic conditions contribute to safety concerns in the project area.
- The roadway network and configuration in the project area lacks continuity and does not meet driver expectations.
