PennDOT Clinton County Maintenance Work Schedule for the Week of July 29

Clearfield, PA – The Pennsylvania Department of Transportation (PennDOT) announced the following schedule of maintenance activities in Clinton County the week of July 29. PennDOT performs year-round maintenance in its mission to provide a safe, efficient transportation system, and the scope of work in Clinton County for the coming week is as follows:

Pipe Replacing & Cleaning

- Route 2002 (Narrows Road) between Route 64 and Route 880 (Valley Road). Monday, July 29, through Friday, August 2. Flaggers in the roadway will provide traffic control during daylight hours.
- Route 2022 (Sugar Run Road) between Masden Hollow Road in Beech Creek Township and Route 120 in Lock Haven. Flaggers in the roadway will provide traffic control during daylight hours.

Pipe replacement and cleaning are essential in maintaining water flow around state roadways. Controlling water flow is one of the most important aspects of maintaining pavements. Uncontrolled water flow will damage both the pavement surface and the area under the pavement, which causes deterioration across the length of the pipe.

Shoulder Maintenance

- I-80 between the Centre-Clinton County line and Exit 185. Monday, July 29, through Friday, August 2. PennDOT will implement short-term lane closures while completing this work.

Shoulder cutting removes excess material and debris from unpaved shoulder areas. Shoulder grading involves the shaping and stabilizing of those same areas. Both operations improve drainage, allow water to leave the roadway, and eliminate shoulder drop-offs. These are crucial highway maintenance operations because when drainage systems do not function properly, water collects on the road, weakens pavement, accelerates the formation of potholes, and creates the potential for icing conditions in the winter months.

Vegetation Management

- Route 120 between the Cameron-Clinton County line and Lock Haven. Monday, July 29, and Tuesday, July 30. This work takes place on the shoulder and has minimal, if any, traffic impact, however PennDOT urges drivers to exercise caution through the work zone.

- Route 144 through all of Clinton County. Wednesday, July 31, and Thursday, August 1. This work takes place on the shoulder and has minimal, if any, traffic impact, however PennDOT urges drivers to exercise caution through the work zone.
- Route 880 (Valley Road) between the Centre-Clinton County line and Fourth Gap Road in Greene Township. Friday, August 2. This work takes place on the shoulder and has minimal, if any, traffic impact, however PennDOT urges drivers to exercise caution through the work zone.

Mowing, herbicide spraying, and selected tree thinning help maintain a safe roadway free of obstructing vegetation, improving visibility to spot signage, traffic control devices, and other motorists, bicyclists, pedestrians, and animals approaching the road. Additionally, a well-maintained roadside can improve drainage and prolong the life of the roadway.

This schedule is subject to change due to weather conditions, emergencies, or other unforeseen interruptions.

Customers can report road concerns by calling 1-800-FIX-ROAD. If calling after hours, please leave a name and phone number.
