PennDOT Mifflin County Maintenance Work Schedule for the Week of October 7

Clearfield, PA – The Pennsylvania Department of Transportation (PennDOT) announced the following schedule of maintenance activities in Mifflin County the week of October 7. PennDOT performs year-round maintenance in its mission to provide a safe, efficient transportation system, and the scope of work in Mifflin County for the coming week is as follows:

Mechanized Patching

- Route 4001 (Woodland Road) between the intersections of Route 1005 (Tea Creek Road) and Route 4006 (Back Mountain Road) in Brown Township. Monday, October 7, through Wednesday, October 9. Flaggers in the roadway will provide traffic control during daylight hours.

Mechanized patching is used to patch limited roadway areas that have extensive potholes, large areas of cracked pavement, and depressions. If mechanized patching was not performed, the damaged road surface would further deteriorate, resulting in PennDOT needing to completely rebuild the road or perform more costly corrective measures.

Pipe Replacing & Cleaning

- Route 103 between the Huntingdon-Mifflin County line in Wayne Township and the intersection of Ridge Road in Bratton Township. Thursday, October 10, and Friday, October 11. Flaggers in the roadway will provide traffic control during daylight hours.

Pipe replacement and cleaning are essential in maintaining water flow around state roadways. Controlling water flow is one of the most important aspects of maintaining pavements. Uncontrolled water flow will damage both the pavement surface and the area under the pavement, which causes deterioration across the length of the pipe.

This schedule is subject to change due to weather conditions, emergencies, or other unforeseen interruptions.

Customers can report road concerns by calling 1-800-FIX-ROAD. If calling after hours, please leave a name and phone number.

For more information on PennDOT's maintenance activities, visit www.PennDOT.pa.gov/about-us/maintenanceactivities.

Motorists can check conditions on major roadways by visiting www.511PA.com. 511PA, which is free and available 24 hours a day, provides traffic delay warnings, weather forecasts, traffic speed information and access to more than 1,000 traffic cameras. 511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by [following regional X alerts](#).
