

MANSFIELD PENNDOT PROJECT

SR 6 (Wellsboro Street) AND SR 2005 (Bus 15/Main Street)

MANSFIELD BORO AND RICHMOND TWP, TIOGA COUNTY

PENNDOT PROJECT TEAM

- **Jay Miller – PennDOT Assistant Construction Engineer (ACE)**
- **Gary Lampman – PennDOT Construction Project Manager**
- **Rebecca Jackson - PennDOT Design Project Manager**
- **Greenman-Pederson Inc. - Consultant Design Firm**
- **Glenn O. Hawbaker – Prime Contractor (Rodney VanNoy – Project Manager)**

Topics

- Project Overview
- Proposed Improvements
- Traffic Control Considerations
- Drainage Overview
- Utilities
- Anticipated Schedule

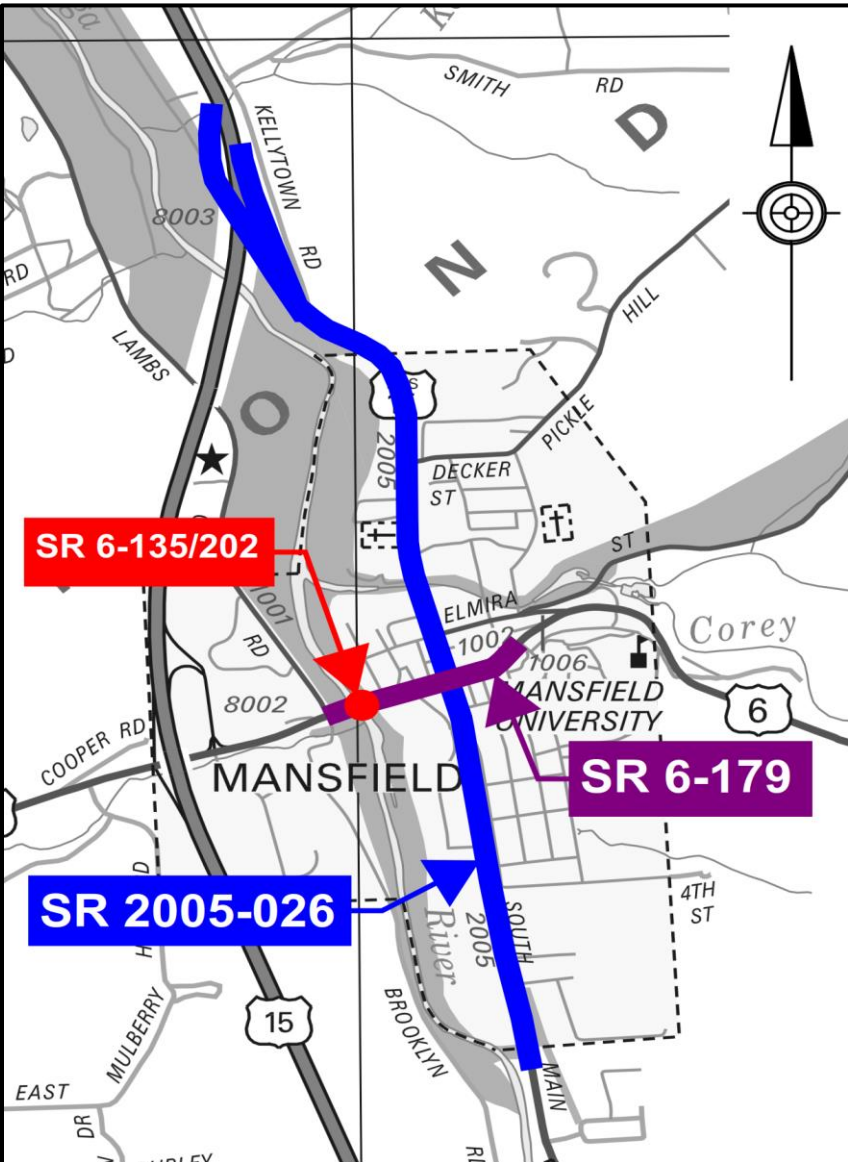

PROJECT OVERVIEW

Highway Resurfacing and Bridge Preservation

- **SR 6-179 - HIGHWAY RESURFACING**
- **SR 2005-026 - HIGHWAY RESURFACING**
- **SR 6-135/202 - BRIDGE PRESERVATION OVER TIOGA RIVER**
- **Construction Cost - \$7.3 Million**

Proposed Improvements

- ✓ Resurface Roadways with Base / Joint Repairs
- ✓ Replace Drainage at Select Locations
- ✓ Utility Work (Water, Sewer, Gas)
- ✓ ADA Curb Ramps
- ✓ Guide Rail Replacement
- ✓ Update Signing and Pavement Markings
- ✓ Bridge Preservation over Tioga River

TRAFFIC CONTROL

■ Utilize Short-term Flagging Operations

- Pennsylvania Standard Applications (PATAs)
- Maintain 1 travel lane
- **Working hours** - Set up and tear down the short-term construction work zones each shift
- **Non-working hours** - Reopen all lanes of traffic and the adjacent shoulders and/or parking lanes to traffic

■ Night Work in Central Business District

■ Closure Lengths and Durations

- Access to businesses – Maintained at all times
- Striving to minimize disruptions to parking and street access

Large Trucks

Night Work

CONSIDERATIONS

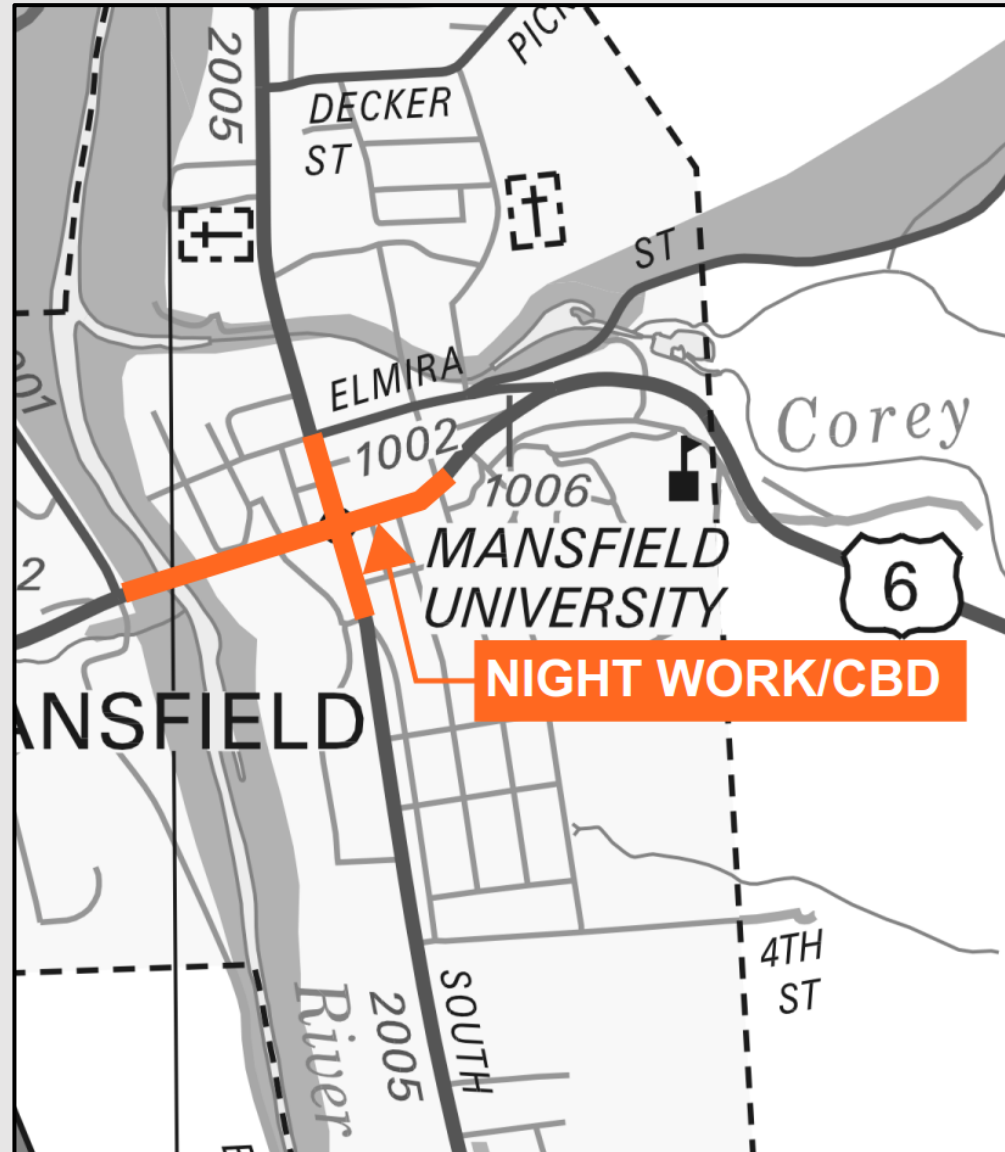

Durations

TRAFFIC CONTROL

■ Night Work

- Coordinated with Mansfield Borough during design phase
- Central Business District (CBD) - No lane restrictions from 6:00 AM - 8:00 PM.
- SR 6 between SR 1001 (Lambs Creek Road) and North Academy Street.
- SR 2005 between East Main Street and SR 1002 (E. Elmira Street)
- Illumination in the work zone
- Work Shifts Sunday Night through Friday Morning

TRAFFIC CONTROL

■ Directional Detour / Bridge Work

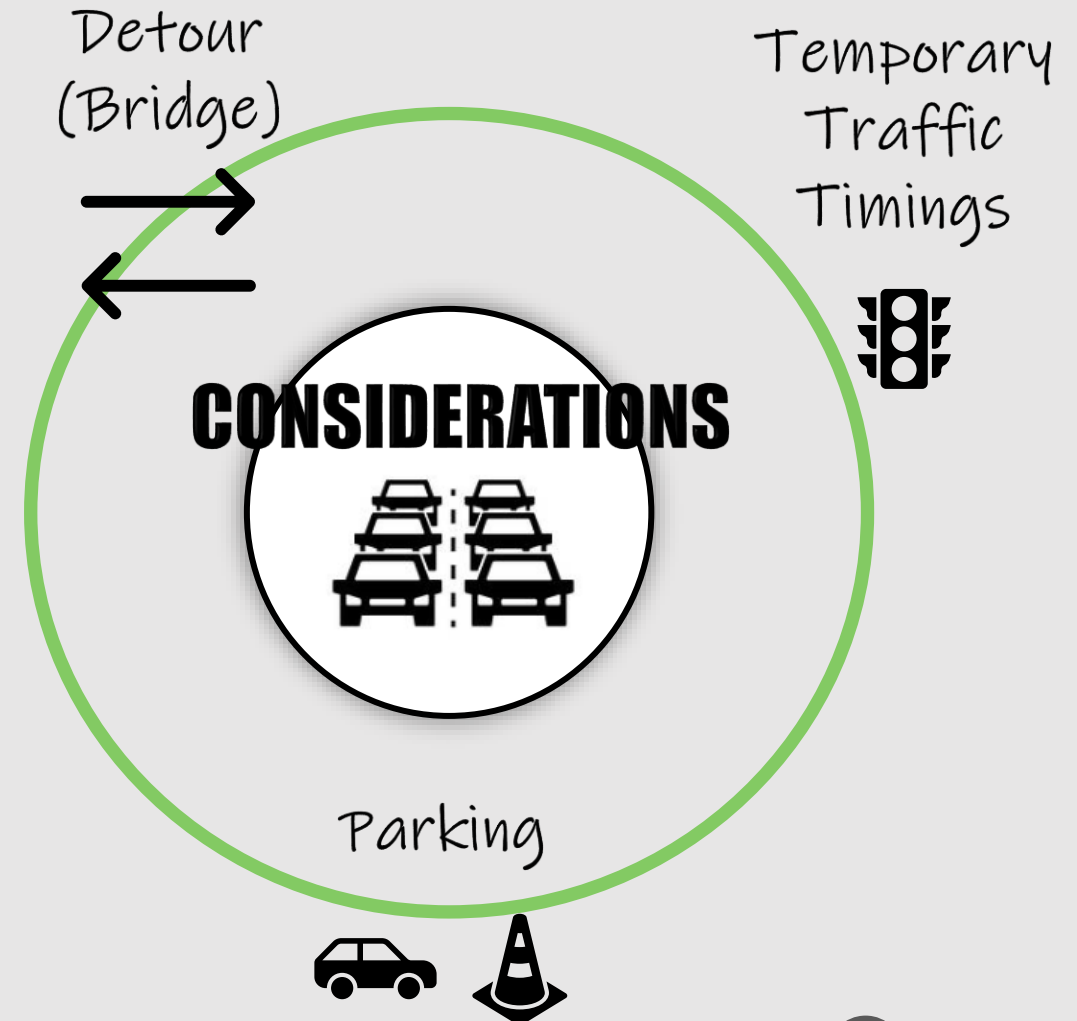

- Eastbound travel lane open on SR 6
- Temporary traffic signal timing adjustments and phase changes along detour.

■ Temporary Parking Impacts

- Night-time ONLY
- Active Work Zone areas per Contractor
- Police enforcement for parked vehicles

■ Special Events

- No traffic disruptions during known events (4th of July Parade, Mountie Days, Homecoming, Trunk or Treat, 5k races, etc.)

DRAINAGE OVERVIEW

- ✓ Facilitates resurfacing between curb lines.
- ✓ Addresses deteriorated pipes and problematic areas
- ✓ Improves highway drainage
 - ✓ Meet PennDOT design standards, where feasible.
 - ✓ Add more inlets and larger pipes, where feasible.
- ✓ Maintains discharge points and Borough's MS4 network
- ✓ Cost Sharing and Establishes Maintenance Responsibilities with Mansfield Borough

What will the Drainage Revisions Not Do?

- ❖ *Improve drainage in other parts of the Borough*
- ❖ *Alter the Arch Pipe Conduit*
- ❖ *Alter the Corey Creek Culvert or River Levee System*
- ❖ *Alter amount of stormwater runoff*
- ❖ *Resolve problems beyond the limits of work*

UTILITIES

What to expect:

- Water, Gas, Sanitary and Aerial Utilities will require adjustments.
- Aerial Relocations – Prior (Complete)
- Water/Sewer – Incorporated Work
- Gas – Coordinated Work

ANTICIPATED SCHEDULE

▪ Contractor Start Work – Mid May 2024

▪ 2024 Planned Work (Subject to Change**)

- Bridge Preservation Over Tioga River
- ADA Ramps
