**Public Plans Display
for
SR 0741, Section 031
McGovernville Intersection Improvement Project**

PROJECT DESCRIPTION

The Pennsylvania Department of Transportation (PennDOT) announces a Plans Display for intersection improvements to SR 0741 (McGovernville Rd) in Manheim Township, Lancaster County.

The purpose of the project is to improve mobility and safety for the traveling public through the intersection by combining the separate intersections into a single intersection of SR 0741 and Apollo Drive. The proposed work will install a roundabout which includes horizontal and vertical alignment adjustments along both legs of SR 0741, adjustments to the SR 0283 EB off/on ramps and Apollo Drive, existing roadway removal, embankment grading, drainage, pavement, curb installation and signing and pavement marking upgrades. Street lighting will also be installed around and along each leg of the roundabout.

The acquisition of temporary construction easements and permanent required right of way will be required for this project to support the footprint proposed to support roadway construction and stormwater management facilities.

Construction work is anticipated to start in 2026 and finish in 2027. Traffic will be staged to complete as much construction off alignment to maintain traffic flow throughout the first stage of the project and then followed by detouring all legs, except SR 0741 southbound, during the second stage of construction.

Please remember to complete a questionnaire. If you have any questions concerning this project, please do not hesitate to contact PennDOT Project Manager Kyle Kreiser at (717) 787-5448 or kykreiser@pa.gov or Brandon Peterson with Erdman Anthony at (717) 766-1741 or peterσονb@erdmananthony.com.
